

#### 4. THE ROLE OF LOCAL GOVERNMENT IN MEETING NEW ZEALAND'S CLIMATE CHANGE TARGET

The Committee gave consideration to a draft submission on the Interim Report of the Local Government and Environment Select Committee on "Inquiry into the role of local government in meeting New Zealand's climate change target".

The draft submission had previously been considered by the Resource Management Committee which proposed a number of amendments to the draft and was to be considered by the Environment Committee at a special meeting on 19 March 2001.

The Committee **decided**:

1. That the responses of the Resource Management Committee be incorporated in the submission.
2. That staff be asked to note the comments of the Environment Committee and prepare an integrated submission for approval by the Council at its meeting on 22 March 2001.
