

4. HAZARDOUS WASTE ACCEPTANCE CRITERIA - BURWOOD LANDFILL

The Subcommittee received a report providing details of the hazardous waste acceptance criteria for the Burwood Landfill to be considered at the May meeting of the Christchurch City Council.

The City Services Committee had requested that the report also be referred to the Canterbury Waste Subcommittee in view of the involvement of other member councils in forwarding waste to the Burwood Landfill and the desirability of a common approach for the proposed new regional landfill.

The Subcommittee **decided** that each participating council consider the proposed new landfill acceptance criteria with a view to adoption.
