

12. ORGANICS PROCESSING PLANT

The City Water and Waste Manager provided an updated tender programme for the organics processing plant and requested approval to add an additional company to the tender shortlist.

The report provided details of the background to the proposed plant, a revised timetable and details of funding and the tendering shortlist. Approval was sought to add an additional Australian waste energy company, Brightstar Environmental, to the tender shortlist as a consequence of subsequent discussions with this company.

The Committee **received** the information and **decided** that Brightstar Environmental be added to the tender shortlist.
