1.2 Wai-iti Terrace – Undergrounding Proposal

John Thomson of 16 Wai-iti Terrace addressed a tabled submission on behalf of the residents of Wai-iti Terrace (west) calling on the Council to undertake the undergrounding of existing overhead services as part of the forthcoming kerb and channel renewal project. Pledges from local residents to achieve a 50% contribution to the cost of the undergrounding were close to being achieved.

The Board **decided** that the residents' interest in the undergrounding of overhead services being integrated with the kerb and channel renewal in Wai-iti Terrace be supported and that this support be reflected in the Board's submission to the Council's Draft Financial Plan for 2001/02.
