

## 2. DEPUTATIONS BY APPOINTMENT

### (b) Ray Craig – Principal, Shirley Intermediate School

Ray Craig spoke to the Board regarding the road works in progress along Shirley Road. Mr Craig stated that the staff, board of trustees and children at the school were in favour of the works. However there was a problem with the work being done in stages. Mr Craig stated that when the current stage is finished, it will leave the footpath narrower than it was previously. This will cause some safety issues for children and other users of the footpath. Mr Craig also requested that more rubbish receptacles be installed along Shirley Road. The Chairperson requested a report from the Area Engineer regarding the works.
