

12. MOBILE LIBRARIES REVIEW: STAGE TWO – KAINGA STOP

The Board received further information regarding the removal of the Kainga Mobile Library Stop following the initial report at the April Board meeting. Several Board members advised that they had spoken to the residents about this matter. The residents accept the changes but requested that the timetable be changed so that school children can access the mobile library. The Outreach and Special Needs Librarian advised she could not promise a change in timetable, but would promote the timetable in the Styx newsletter.

The Board **decided** that the proposal, of an alternate weekly service between Kainga and Spencerville be accepted, and that the local residents associations be advised through the Styx newsletter of these changes.
