

### 3. WORKS, TRAFFIC AND ENVIRONMENT COMMITTEE

#### 3.1 REPORT OF 15 OCTOBER 2002

The Board considered the Committee's report and accompanying recommendations and **decided**:

##### 3.1.1 Deputations

###### **Submissions on Kerb and Channel Renewal Requests**

Representatives from six local streets had been invited to present to the Committee their submission on kerb and channel renewal requests previously presented to the Council's Annual Plan Sub Committee in June 2002. They were also each invited to submit their thoughts and ideas on the present assessment criteria as a means of assisting the Board in formulating its own response to the Sustainable Transport and Utilities Committee in November.

A number of factors were highlighted by the submitters for the Board to consider as part of its own review of the present criteria for assessing kerb and channel projects.

The Board also **decided** to adopt the following recommendation from the Committee.

That the Board again convey its dissatisfaction with the contractor's performance in the maintenance of the channels in Hamilton Avenue and than an early report be submitted to the Committee on the intended steps to bring the maintenance work up to the expected standard.

##### 3.1.2 Kerb and Channel Capital Renewal Programme

The Board noted that the Committee had received details of the Council's agreed timeframe for the review of the criteria for the prioritisation of kerb and channel renewals in the city and the finalisation of the capital programme thereafter.

##### 3.1.3 Jellie Park Aqualand – Lease Surrender Recreation Management Services

Clause 15 (Public Excluded) of this report details the Committee's consideration of this matter.

Other decisions made by both the Committee and the Board are set out in clause 13 (Part C) of this report.
