

9. GOVERNMENT FUNDING – OUT OF SCHOOL CARE AND RECREATION PROGRAMMES

The Board considered a report outlining the latest information on new government funding available for Out of School Programmes.

The Board **resolved**:

1. That Community Recreation Advisers and Community Development Advisers work closely with community providers, the OSCAR Network in Christchurch and National OSCAR to ensure that Christchurch providers are aware of this funding.
2. That Community Boards consider continuing to support Out of School Programmes in their areas at current levels of funding for the 2003/2004 financial year until an analysis of the impact of Government funding in this area in Christchurch has been made and reported back to Boards by June 2003.
3. That funding be set aside from the Board's 2002/03 Discretionary Fund to research the effectiveness of after school programmes in the Spreydon/Heathcote area.

(Paul de Spa requested that his vote against this resolution be noted.)
