

7. AVON RIVER/OTAKARO BRIDGE LIGHTING

The Committee **received** a report from Brendan Smyth, Urban Designer outlining the order of priority of future lighting work on the central city bridges of Christchurch.

The Committee **decided**:

1. That the Avon River Bridge lighting projects be prioritised as detailed in the report and as funding allows.
2. To refer the report to the Parks, Gardens and Waterways Committee for information and the Parks and Waterways Unit be asked to advise of any issues affecting the bridge lighting schedule in the order proposed, from a repairs and maintenance perspective.
