

9. ANZAC DRIVE - PROPOSED ARTWORK

A report from the Community Technical Adviser informed the Board on the outcome of a meeting held between Board members, representatives of the New Brighton Returned Services Association and Council staff to discuss how to progress a proposal to install a commemorative artwork on Anzac Drive. The Board **decided:**

1. That the three Board members involved pursue this project to completion, reporting through the Art in Public Places Working Party.
2. That the Board members involved in the project, in consultation with appropriate Council staff, be given authority to investigate a possible site for the commemorative artwork.
3. That the Board report to the Artworks in Public Places Subcommittee at an appropriate stage on the initiation of the project.
