This report was referred to the Community Board for its consideration and recommendation to the Council.

### PURPOSE OF REPORT

The purpose of the report is to gain the Council's approval of the assignment of a grazing licence from Scotts Valley Limited to Peter John Scott.

### BACKGROUND

In 1996, the Council acquired from Scotts Valley Limited the area adjoining the Summit Road known as Castle Rock. This land was acquired as a recreation reserve. Under the agreement reached at that time, Scotts Valley Limited retained a grazing licence over the area for a period of 12 years from 11 November 1996. This licence was seen as necessary by the Council to manage the reserve, while at the same time allowing public access to enjoy the area. The total area held under the licence covers approximately 85 hectares, and adjoins and abuts to the west an area of reserve also subsequently acquired from Scotts Valley Limited by the Council, which is farmed and grazed by Peter Scott.

### GENERAL

As indicated above, when the Council subsequently purchased the balance of the property from Scotts Valley Limited, it was subject to a grazing licence held by Peter Scott. This licence expires contemporaneously with the licence held by Scotts Valley Limited. The situation now exists whereby two grazing licences are held, one by Scotts Valley Limited and one by Peter Scott. An application has been received through the Council's solicitors to tidy this matter up by assigning the licence from Scotts Valley Limited to Peter Scott.

While Scotts Valley Reserve and Castle Rock Reserve are technically grazed by two entities, they are in effect farmed by the same person whose management of the area has been exemplary and as such it is recommended that the assignment be approved.

Section 115(1) of the Reserves Act 1977 provides as follows:

*"Where a lease or licence includes a right of transfer the lessee or licensee shall not transfer, sublease, mortgage or otherwise dispose of his interest or any part thereof in the lease or licence without the consent of the administering body".*

While the licence does not contain a clause permitting its assignment, this assignment is still provided for under Section 115 of the Act, and as such there is no legal reason why the application should not be approved.

As a consequence of this, the Council's approval as administering body is required to the assignment, and the Community Board was asked to recommend accordingly.
