

## 7. CITY BEDDING SCHEMES

The Committee **received** a report comparing the costs associated with the current standard bedding scheme with the provision of an instant flower scheme (the purchase of flowering bedding plants).

The Committee **decided** that staff review and report on the current policy and practice applicable to the purchase, growing and planting of annuals within the four avenues, such report to outline:

- the types of annuals used and their locations
- funding
- suggestions for change including acquisition of plants and their landscape use
- the opportunities to work with the Christchurch Beautifying Association.
