

18. WORKS TRAFFIC AND ENVIRONMENT COMMITTEE - REPORT OF 19 MARCH 2002 (Cont'd)

Further to Clauses 1.2 and 6 of this report (Part B), the Board also **resolved**:

18.1 Leinster Road – Proposed Give Way Control

That a Give Way control be placed against Leinster Road at its intersection with Rossall Street.

In making this decision, the Board took into consideration the submissions made earlier in the meeting by Mr Dennis Jamieson (Clause 1.2 refers).

A concern was expressed about merging traffic on Rossall Street at the Glandovey/Rossall/Strowan intersection. Members were advised that a post construction safety audit was still to be undertaken and that remedial action would be taken if required, to address this issue.
