

2. HAGLEY AVENUE PROPOSED CYCLE AND PEDESTRIAN FACILITIES – CONTINUATION OF DISCUSSION

The Board gave further consideration to the proposed Hagley Avenue Cycle and Pedestrian Facilities discussion begun at the 27 February Board meeting.

The Board **decided** to advise the Sustainable Transport and Utilities Committee that the Board supported part of the proposal but would like to see more use of a cycle lane through Hagley Park itself and that there were also several parts of the proposal that the Board did not support.

The Board **decided** to seek speaking rights on this issue at the Sustainable Transport and Utilities Committee meeting.
