

## 10. 2001/02 CITY STREETS ROADING PROGRAMME

The Committee received a report providing an update in the progress for metropolitan projects (arterial and collector roads) programmed in the Annual Plan for the 2001/02 financial year.

In addition the City Streets Manager drew the attention of Committee members to the possible delay of up to six months in the provision of Transit New Zealand funding for the Dyers Road/Linwood Avenue roundabout and it was **decided** that a letter be sent by the Chairman to Transit New Zealand expressing concern on behalf of the Committee at any possible delays in implementing this project.
