

5. FIREFIGHTERS' RESERVE DEVELOPMENT

The Committee **received** a report on progress with the design and development of a new central city reserve and signalled a request for additional funding towards its construction.

The report was also considered at a meeting of the Hagley/Ferrymead Community Board on 31 July 2002. The Board has recommended that the reserve be named Firefighters Reserve. The Board was also advised that the anticipated level of corporate funding towards stage 1 of the project was now such that assistance from the Board's discretionary funding would not now be required for the completion of stage 1.

The Committee **decided**:

1. To receive the information and endorse the landscape plan.
2. That further funding be sought in the 2003/2004 annual plan to complete the reserve's development in accordance with stage 2 of the landscape plan.
