

## 15. BEALEY AVENUE/FITZGERALD AVENUE/WHITMORE STREET – DESIGN CONSTRUCTION

The Board considered a report informing the Board of the results of consultation and seeking approval to proceed with design, construction and re-marking of the Bealey Avenue/Fitzgerald Avenue/Whitmore Street intersection (see also clauses 8.2 and 8.3).

The Board **resolved**:

1. To advise the Sustainable Transport and Utilities Committee that the Board supported the recommendations set out in the report.
2. That Council officers be requested to consult further with John Rhind Limited, the two businesses situated at 302 and 304 Fitzgerald Avenue and Richmond Neighbourhood Cottage Residents' group with a view to minimising the loss of parking consistent with the integrity of the plan.

The Board noted that the proposed “no stopping” triangular area on Whitmore Street at the intersection with Avalon Street was not included in the parking restriction recommendations in the report. The Board approved in principle the “no stopping” parking restriction around the triangular area, subject to the consultation identified in the above resolution.
