

## 17. CORRESPONDENCE

### 17.1 Keep Christchurch Beautiful

The Committee received correspondence from the Keep Christchurch Beautiful Committee seeking its support in increasing the fines for infringements of the Litter Act 1979.

The Committee **received** the correspondence and decided to acknowledge this advising that it felt an increase in the infringement fee would not lead to a reduction in the amount of litter.

### 17.2 Red Bus Limited

The Committee received correspondence from Mr Greg Campbell, Chief Executive, Red Bus Limited advising that the company had now introduced low sulphur diesel within its fleet as a means to reduce emissions caused by motor vehicles within the city.

The Committee **decided** to write congratulating the company on its initiative.
