

9. PROJECT PROPOSALS – RESPONSES FROM BUSINESS UNITS

Information was **received** detailing the outcome of the considerations given to the business units' responses regarding the project proposals section of the Board's 2001 Planning Statement.

In relation to the Breens Road/Wairakei Road intersection, the Board asked that the intended safety audit of the intersection and the immediate Wairakei Road area, also include Todd Avenue.

Mention was also made of the poor standard of the footpaths in Thornycroft Street and staff undertook to report on this.
