

## 7. BUCKLEYS ROAD/KERRS ROAD TRAFFIC SIGNALS: PEDESTRIAN CROSSING EXTENSION

A report from the Traffic Engineer sought consideration as to whether or not the pedestrian crossing facility in Buckleys Road at its intersection with Kerrs Road be extended to include the south-eastern portion of the four lane divided arterial. The Board also considered a report from its Works and Traffic Committee.

The Board **decided** to recommend to the Sustainable Transport and Utilities Committee:

1. That the project, to extend the pedestrian crossing facility in Buckleys Road at its intersection with Kerrs Road to include the south-eastern portion of the four-lane divided arterial, be deleted from the 2001/02 Safety Improvement Works programme.
2. That consideration be given to spending the funds in the Hagley/Ferrymead Community Board area.
3. That the needs of pedestrians in this area continue to be monitored and reported on to the Board in November 2002.
