

9. NEIGHBOURHOOD WEEK METROPOLITAN

The Board was in receipt of a report which summarised Neighbourhood Week 2001 (metropolitan) and offer recommendations regarding the future administration of this annual community event.

This annual event has grown and includes the six Community Board areas across the city. The increasing popularity initiated the forming of a Joint Board committee in 1999 with representatives from each of the six Community Boards. Interested parties from the Council's Community Relations Unit were also invited to participate in steering of Neighbourhood Week as well as members of the wider community

Neighbourhood Week 2001 was held 27 October – 2 November.

The Board **agreed** to elect two members to represent their interests on the Neighbourhood Week Joint Board committee, being Messrs Mike Mora and Neville Bennett, and that new terms of reference be developed to define the committee's role and fine tune the working relationship between the Joint Board committee, the Community Boards and staff.
