

2. **COMMUNITY FUNDING 2002**

The Board **received** information setting out details of the allocations made by the Community Funding Committee for the 2001/2002 funding round.

Members expressed concern over the recently announced decision of SPARC to no longer contribute to the community support fund and the implications this would have for local sports groups and organisations. Should an opportunity become available, the Board confirmed a desire to make a submission on the matter.
