

3. 2002 HOLIDAY PROGRAMME REPORT

The Board **received** a report on the school holiday programmes delivered by the Leisure Unit in the Shirley/Papanui Community Board area over the period January – June 2002.

Ingrid Stonhill stated it was unfortunate that the needs of the Birch Grove School area have not been able to be addressed.

Graham Condon advised that the new Sport and Recreation agency (SPARC) is trying to change the recreation culture of children. To this end there will be funding available for programmes initiated by the community for high risk children. This is a good opportunity for the Community Board to initiate programmes for which funding could be provided.
