

11. COMMUNITY GARDEN CHAMPIONS

A report from the Sustainable Christchurch Leader sought the nomination of a Community Garden Champion(s) to support and promote community gardening in the Board's area and its integration with other Board initiatives. The reporting staff member was in attendance, as were representatives from the Strickland Street Community Garden and the Opawa Community Garden.

The Board **resolved**:

1. To appoint Carole Anderton and Paul de Spa as Community Garden Champions to promote community gardens and to help oversee the co-ordination and integration of initiatives with similar aims in the Board area and across the city.
2. To thank Christine Blance from the Strickland Street Community Garden and Jenny Henderson from the Opawa Community Garden for their excellent work with the community in the development of these community gardens.
