

9. **TRANSWASTE CANTERBURY LTD REPORT BACK**

Section 7(2)(h)

As resolved at the previous meeting of the Subcommittee a report on the issues of operation of the Tiramona Station Farm, ownership of the landfill site and decisions of the Transwaste Canterbury Ltd Board was provided for the information of members.

Mr Gareth James, General Manager, Canterbury Waste Services, attended and spoke further to the reports provided in the agenda and also took the opportunity to update members on the status of the resource consent applications which had been lodged with the Hurunui District Council and Environment Canterbury in the previous week.

It was agreed that Mr James would provide copies of the reports, minus any information still considered commercially sensitive, for the information of member councils.

The Subcommittee **resolved** to receive the information.
