

### 3. ILAM ROAD – KERB AND DISH CHANNEL RENEWAL

The Area Engineer sought the Board's approval to proceed with the renewal of the dish channel on the west side of Ilam Road from Nos 233 to No 277. In so doing, he provided a summary of the feedback received to the previously circulated publicity pamphlet and indicated that as a result, some changes had now been incorporated in the project design.

The Board **decided** that the renewal of the dish channel in Ilam Road (Nos 233 to 277) be approved for construction.
