

14. SUPPLEMENTARY ITEM

The Chairman referred to a supplementary report from the Area Engineer on the proposed renewal of the kerb and dish channel in Merivale Lane and advised that it had not been possible to include the report in the agenda as it was not available at the time the agenda had been prepared and circulated and that it was essential for the report to be dealt with at the present meeting.

The Board **resolved** that the report be received and considered at the present meeting, the results of which are detailed in clause 8 of this report.
