

**27. LINWOOD AVENUE/GLOUCESTER STREET INTERSECTION – PROPOSED RELOCATION OF TREES**

A report from the Council's Safety Auditor sought the approval of the Board to relocate up to six trees from the Linwood Avenue/Gloucester Street roundabout and adjacent median island east of the intersection.

The Board **resolved:**

1. That this matter be referred to the Board's Works and Traffic Committee and that the Committee also receive a report on the traffic signal proposal for Linwood Avenue/Gloucester Street and the relocation of up to six trees, at the same time so that the issues can be considered together.
2. That the Works and Traffic Committee have power to act on this occasion.
