

## 9. CANTERBURY PARK PLANNING PROGRAMME

The Committee considered a report on the planning programme for the recently acquired Canterbury Agricultural Park (Canterbury Park). Three options were presented for the planning and future development of the park.

The Committee **resolved** that community consultation with local and regional interests be pursued and that a concept plan be developed. There would be no new land development or use at this stage.

In addition it was further **resolved** that an on-site workshop and planning seminar be held on Canterbury Park in the near future with an invitation to the Parks, Gardens and Waterways Committee, and Riccarton/Wigram and Spreydon/Heathcote Community Boards and staff.
