

6. **STRAVEN ROAD SIGNALISED PEDESTRIAN CROSSING AT MATAI STREET**

The City Streets Manager reported, advising that approval would shortly be sought from the Sustainable Transport and Utilities Committee for a signalised pedestrian and cycle crossing to be installed in Straven Road at its intersection with Matai Street.

Members of the Board expressed satisfaction with the proposal in that it met all the concerns previously expressed by residents, and noted that the community consultation process which had taken place had reached a conclusion which was acceptable to all stakeholders. The Board **received** the report.
