

4. INTERSECTION IMPROVEMENTS – LYTTELTON STREET/LINCOLN ROAD

A report by a Planner in the Urban Design Team noted progress towards the redevelopment and amenity improvements of a site on the corner of Lincoln Road and Lyttelton Street. Landscaping, planting, installation of a footpath and provision of a seat was planned for completion during June 2002, with the installation of a flat area suitable for the installation of a sculpture at some future time. The Board **received** the information.
