

8. ODIE PLACE PEDESTRIAN ACCESSWAY

A report from the Area Traffic Engineer and the Community Secretary provided the background information for the Board to consider the closure of the pedestrian accessway from Odie Place to Pages Road. The Board had previously recommended that the accessway be closed but a final decision was deferred. As a result of the recent change in the delegations to Community Boards, the Board now had the authority to make the decision. The Board **decided:**

1. That the accessway from Odie Place to Pages Road be closed and that road closure procedures begin as soon as possible.
2. That the Property Unit consider the land issues concerning the two Odie Place properties.
3. That Mr Bearman be informed of the Board's decision and residents be informed of the formal road closure procedures prior to initiation.
