

### 3. UPDATED TIMETABLE FOR KATE VALLEY CONSENTS

The Subcommittee considered a report from Zefanja Potgieter, Resource Planner Solid Waste, Christchurch City Council, updating the Subcommittee on the proposed timeline for resource consent applications for the Kate Valley regional landfill site.

Members noted the need for the recommendations on this matter to be referred to each shareholder council for formal consideration and it was requested that this item be placed on their agendas for future consideration.

Mike Stockwell, City Water and Waste Manager, Christchurch City Council, explained that the current consent for the Burwood Landfill expires in May 2002, but an extension had been applied for, and while the site could be used until 2006 it was not desirable that use should continue past 2004.

The Subcommittee **resolved**:

1. That the information be received.
2. That members note that it is advisable that no member of the Subcommittee or member council offer public comment during the run up to and actual consenting process.
