

2. DEPUTATIONS BY APPOINTMENT

2.2 Maureen Thompson re Thornycroft Street Upgrading

Neil and Maureen Thompson and Mr Brian McGoldrick of Thornycroft Street presented a submission on behalf of street residents requesting that the upgrading of Thornycroft Street including undergrounding be brought forward in the Council's capital works programme as a living street project.

Following the residents presentation, the Board discussed various options aimed at addressing the matters raised in the submission.

The approach preferred by the majority of members was for the Board to pursue the matter through the forthcoming annual plan process by way of a submission as had occurred last year.

The Board therefore **decided**:

1. That as part of its input into the next annual plan, the Board continue to investigate a possible substitution(s) to enable Thornycroft Street to be brought forward in the works programme from 2007/08.
2. That a decision on the form of upgrading treatment to be undertaken in Thornycroft Street await the outcome of the Council's eventual assessment of the Living Streets trial programme.
