

16. NATIVE TREES

A report from the Chairman of Native Trees Please provided information on the outcome of the Native Trees Please! Millennium Project and sought additional funding for interpretation panels and ongoing support for the site in the Hagley/Ferrymead Board area.

The Board considered that local schools should be involved in the planting in Charlesworth Reserve.

The Board **resolved**:

1. That the information be received.
2. That the concept of the schools and/or local communities involved with the Native Trees Please! project formally adopting the planting site in their area be investigated.
3. That with regard to the Hagley - Ferrymead site, subject to completion of landscape plans and the Board's approval, the planting proceed on an alternative site within Charlesworth Reserve in accordance with the Native Trees Please! concept.
4. To consider approval for the installation of the interpretation panels and allocating funding when a report is received by the Board following completion of the planting in Charlesworth Reserve.
