

7. NATIVE TREES

The Board considered a report on the outcome of the Native Trees Please! Millennium Project, seeking additional funding for information panels and on-going support for each site in respective Board areas.

The Board **decided**:

1. That the information be received.
2. That the concept of the schools and/or local communities involved with the Native Trees Please! project formally adopting the planting site in their area be investigated.
3. That additional information on the project, including the cost of a wooden information board, be placed before its Parks, Environment and Leisure Committee.
