

## 6. CITY WATER AND WASTE UNIT: KEY ISSUES AND PROJECTS

Mr Mike Stockwell, City Water and Waste Manager, tabled a report for the information of the Committee formalising the key issues for the City Water and Waste Unit as discussed at the annual plan meeting of the Committee in February 2002.

The report detailed current issues and the proposed process and timetable for their implementation/resolution.

The Committee **decided** that the key issues and projects be adopted and that staff brief new Councillors on the Committee on the current position regarding the wastewater consent.
