

9. ALPINE VIEW LANE

A report from the Area Engineer updated the Board on the petition presented to the Board requesting the removal of the existing kerb build outs in Alpine View Lane in Burwood. The Board **resolved**:

1. That the Board support road markings, including sidelines, and improved lighting as traffic calming measures in Alpine View Lane and the measures be reviewed six months after installation.
2. That Sonja Barker and other residents be informed of the Board's decision.
