

3. DEPUTATIONS BY APPOINTMENT

3.2 ALPINE VIEW LANE

Sonja Barker and Peter Nicholl were in attendance to comment on the proposed additional traffic calming measures in Alpine View Lane.

Sonja Barker had previously presented a petition to the Board seeking the removal of all the kerb build outs situated in Alpine View Lane. She commented that residents' responses to an original Council questionnaire indicated support for improving the existing kerb build outs and the road markings. Ms Barker suggested a subsequent survey showed that many residents were unsure of what should be done but saw a need for such improvements. She was not in favour of additional traffic calming measures.

Peter Nicholl's main concern was vehicles hitting the kerb build out by 22 and 24 Alpine View Lane, particularly when there is a low sun or at night.

The Board's decision is recorded under Part C, clause 9 of this report.
