

4. MARSHLAND ROAD TRAFFIC SIGNALS AT THE PALMS

A report from the Traffic Engineer provided background information on the decision to place traffic signals at The Palms entrance in Marshland Road between the New Brighton Road/Shirley Road and Hercules Street intersections.

This report was also considered by the Shirley/Papanui Community Board at its meeting on 3 April 2002.

The Board **decided** to recommend to the Sustainable Transport and Utilities Committee:

1. That traffic signals be installed at The Palms main entrance in Marshland Road at the expense of The Palms developers.
2. That the traffic signal phasing and right hand turning lane at the Marshland Road/New Brighton Road/North Parade/Shirley Road intersection be reassessed once The Palms development has been completed, the use of the Golf Links Road northern vehicle entrance into The Palms has been re-established and the signals at The Palms entrance in Marshland Road have been operating for several months.
3. That the Council express its concern to The Palms' developers about the lack of on-site pedestrian facilities at the New Brighton Road entranceway and throughout the shopping centre car parking areas.
