

3. SITING OF TOILET AT BOULDER BAY

The Committee received a report from Warwick Scadden, Area Parks and Waterways Advocate, regarding the construction of budgeted toilets at Boulder Bay.

The proposal to locate a toilet at Boulder Bay had been assessed by a Landscape Architect with City Solutions in terms of its landscape/visual impact and three possible sites had been identified. All three sites were located on Department of Conservation land. A sum of \$33,000 had been provided in the 2001/02 Parks and Waterways Capital programme for construction of the toilets.

At its meeting of 3 April 2002, the Hagley/Ferrymead Community Board recommended to the Parks, Gardens and Waterways Committee:

1. That the project to install a toilet at Boulder Bay, Godley Head Farm Park be deleted from the 2001/02 New Assets Capital Expenditure Programme.
2. That the funding be allocated to new toilets at Cave Rock and that further funds be allocated from the 2002/03 budget to complete the project.

After consideration of the report from Council staff, the Committee **decided:**

1. That the decision to construct a composting toilet at Boulder Bay, Godley Head Farm Park be deferred pending full consultation with all user groups on the need for a toilet block at that site.
2. That a request be made for the 2001/02 budget allocation of \$33,226 for the Godley Head toilets to be rolled over to 2002/03 pending the outcome of the consultation process above.
