

2. DEPUTATIONS BY APPOINTMENT

(a) Terry Wilkinson – Hawkins Road/Marshland Road intersection

Terry Wilkinson from the Ouruhia Residents Association presented a written submission to the Board regarding the Hawkins Road/Marshland Road intersection. Mr Wilkinson requested that traffic lights be installed at the Marshland Road/Lower Styx/ Hawkins Road intersection. Mr Wilkinson stated that he considered the City Streets preferred option for the Hawkins Road intersection was ill-conceived. He was also concerned that the November 2002 date for construction meant that the plan had already been decided upon.

The Information Manager, City Streets, advised that the plan and the anticipated construction date was not final, and that this project was still in the consultation phase.

The Chairperson advised Mr Wilkinson that this project was in the consultation phase and that a public meeting was planned for Monday 13 May in the Spencerville Hall at 7.30 pm, to discuss this intersection. The Chairperson invited Mr Wilkinson to attend.
