

13. PROPOSED INTERSECTION WORK ON HUTCHESON STREET AND COLOMBO STREET

A report jointly prepared by officers from the City Streets, City Solutions Survey and Property Units sought approval to enable car park development at the above intersection and also the Board's recommendation to the Council to commence road stopping procedures on a small parcel of road land. Members expressed concern at the traffic safety aspects and that residents of Hutcheson Street had not been consulted. It was suggested that the proposal could be made the subject of discussion at the Sydenham Community Forum to be held on 29 May 2002, and that a plan of the works be displayed at the Sydenham Community Centre in Hutcheson Street, inviting feedback.

The Board **resolved** that Plan TP 143501 be circulated for consultation with the community.
