

10. TB SHELTER – PROJECT FUND APPLICATION

A report from the Parks and Waterways Area Advocate advised of the restoration of the Coronation Hospital TB Shelter and sought funding from the Board's 2001/02 Project Fund, Heritage Projects allocation.

While supporting the concept, members expressed concern that the total \$10,000 Heritage Project fund was being sought for one project.

The Board **resolved** that interested parties be invited to make application for its 2001/02 Heritage fund of \$10,000, the total fund to be allocated at the 4 June meeting.

(Note: Lynda Carter asked that her vote against this resolution be recorded. Sue Wells took no part in the voting on this item.)
