

14. WORDSWORTH STREET – P5 ZONE

Approval for the installation of a P5 Loading Zone on Wordsworth Street between Hawdon and Buchan Streets was sought in a report from the Area Engineer, in response to a request from the business operating adjacent to the Zone. Currently the parking in the area is unrestricted and all-day parking is occurring. Customers to the business have consequently been parking on the no stopping lines, compromising traffic safety at the intersection.

The Board **resolved** that a P5 Zone be created on the south side of Wordsworth Street commencing at a point 13 metres from its intersection with Buchan Street and extending in an easterly direction for a distance of 10 metres.
