

8. JUBILEE STREET EXTENSION

The Committee considered a report from Brian Neill, Traffic Engineer, updating the Committee on the proposal to extend Jubilee Street by way of a new link road between Bamford Street and Rutherford Street.

The report outlined the consultation process associated with this, the traffic management issues and the recommendations of the Hagley/Ferrymead Community Board which had formally recommended to the Council that procedures be commenced to close a portion of the roadway across Barton Street at its intersection with Bamford Street.

The Committee **decided** that staff continue with implementation of the Jubilee Street extension and the traffic management proposals for Rutherford Street and Garlands Road as detailed in the report.
