

4. URBANISM DOWNUNDER CONFERENCE - AUCKLAND

A report from the Urban Design Planner provided a brief overview of the Urbanism Downunder conference, held in Auckland during March 2003 and on the ideas and processes that were pertinent to the continuing development of Christchurch.

A conference report was tabled by the Committee Chairperson, which summarised some of the presentations given at the conference, together with the conference papers presented by various Christchurch City Council staff members.

The Committee **decided**:

1. That the reports be received.
2. That the reports tabled be circulated to members with the Urbanism Downunder Conference web address.
