

#### 4. STREET NUMBERING IN COMMERCIAL AREAS

The Committee **received** a report by the Environmental Services Manager on the continuing problems caused by the absence of street numbering in commercial areas, and on enforcement of the bylaw provisions requiring such numbering.

In addition to the campaign the Environmental Services Unit intends to commence in October 2003, the Committee asked the Community Relations Unit Manager to forward this item to the Central Business District and Mayoral Forum as a possible project for Neighbourhood Week.
