

5. NORTONS ROAD : PROPOSED TRAFFIC SAFETY IMPROVEMENTS

The City Streets Manager submitted this planned work for consideration, following recent community consultation.

Following the feedback some minor amendments were made to the plan. There is one local resident who has sought to address the Board on this topic.

The Board, therefore, **decided** that the Nortons Road Traffic Safety Improvement Plan be referred back to its Transport and Roading Committee for further consideration. Arrangements have been made for the resident to address the Committee regarding her concerns.
