

12. PROPOSED NEW ROAD NAMES

The Subdivisions Planning Officer sought Board approval to the naming of new roads/rights of way, as follows:

- **Dunbars Road, Halswell**

This new subdivision involves the construction of three new roads and a right of way to serve 72 residential allotments, to be created in three stages.

The Board was asked to approve the names proposed as a list, on the basis that the developer would then allocate the names once the roads had been approved.

The names submitted were all related to garden flowers. Most members thought that more appropriate names could be provided.

The Board therefore **resolved** to reject the names submitted.

- **Kennedys Bush Road, Halswell**

A further stage in this continuing subdivision will create a further 31 residential allotments to be served by an extension of Kennedys Bush Road, and two culs-de-sac.

The developer has sought approval of four names, two to be used now and the other two to be utilised for the final subdivision stage.

The Board **resolved** to approve the following names:

- Quarry Hill Terrace
- The Ridge
- Rock Hill Terrace
- Basalt Terrace
